Gift Cards and Cash Equivalents Purchase and Use

OVERVIEW
The Internal Revenue Service considers gift cards, gift certificates, and stored value cards to be cash equivalents. When given to individuals, cash equivalents create the same tax implications as a distribution of cash. The University, the state, and the IRS have complex rules governing the handling and reporting of cash equivalent transactions.

The University has designed standard disbursement systems to comply with these rules, but the purchase of gift cards results in the distribution of cash equivalents to individuals outside normal controls and processes. Therefore, when a department opts for the use of gift cards, the department must assume some of the accounting and reporting responsibilities normally handled centrally.

Use of these procedures promotes compliance with state and federal regulations and promotes accurate reporting to the federal government.

Definitions

Award
For the purposes of this policy, an award is a cash equivalent given, usually to an employee or student, in recognition of past accomplishments. The recipient has made no formal entry or submission and the recipient did not undertake the recognized activity primarily for the financial benefit of the award (see Prize).

Departments are to charge employee awards to object/subobject code 03JE (Recognition Awards). Departments are to charge student awards to 08AB (Awards).

Business Gift
For the purposes of this policy, a business gift is a cash equivalent given to an individual to express gratitude or appreciation for support of the University's mission. The recipient performed no service nor provided other consideration in exchange for the gift.

Departments are to charge business gifts to object/subobject code 03JE (Recognition Awards).
Gift Cards and Cash Equivalents Purchase and Use

Cash Equivalents
Cash equivalents are stored-value products such as gift certificates and gift cards. The IRS specifically defines these instruments as cash equivalents and states that their value is considered taxable income to the recipient, regardless of dollar value.

Gift Card or Gift Certificate
A gift card or gift certificate entitles the recipient to receive goods or services of a specified value from the issuer.

Prize
For the purposes of this policy, a prize is a cash equivalent presented as a result of participation in a contest, drawing, or judged competition (see Award).

Departments are to charge all prizes to object/subobject code 03SJ (Prizes).

Research Participant Payment
For the purposes of this policy, a research participant payment is a cash equivalent offered to an individual (including a study subject) as incentive to participate in a research study.

Departments are to charge research participant payments to object/subobject code 03PX (Participant Support Costs).

Substitute W-9
A Substitute W-9 is a form the IRS allows as a substitute for IRS Form W-9. WSU uses the Record of Distribution and Request for Taxpayer Number and Certification (Substitute W-9). See 45.53.7.

ALLOWABLE USES
University personnel are to use cash equivalents in only the circumstances outlined in Table 1: Allowable Uses of Cash Equivalents.
Gift Cards and Cash Equivalents Purchase and Use

Allowable Uses of Cash Equivalents

Allowable uses of cash equivalents and appropriate funding sources are presented in the table below. **No other use of gift cards or other cash equivalents is authorized** without the Controller's specific, written approval in advance of the purchase of the cards.

Gift Cards and Cash Equivalents Purchase and Use

**PURCHASING**
Departments may use a purchasing card (see *BPPM 70.08*) or a research cash advance (see *BPPM 40.21*) to purchase gift cards.

**Gift Card Limits**
Departments may purchase gift cards in increments of no more than $250. Departments may not distribute a total of $250 or more in gift cards to an individual for the same event.

**Exceptions**
Make any payment to an individual for more than $250 by check unless prior written permission to exceed $250 has been secured from the Controller's Office.

**Reconciliation**

**PaymentNet**
Reconcile each purchasing card transaction in PaymentNet. Scan the itemized receipt showing the amount of each card, the number purchased, and any activation fees and upload it to the transaction in PaymentNet.

**Cash Advance**
Promptly reconcile a cash advance after a purchase.

**Distribution**
Distribute the gift cards ensuring that appropriate information is collected from each recipient and entered on a Distribution Log for Payments of Cash, Gift Cards and Other Cash Equivalents, and Tangible Personal Property (*BPPM 45.53*). Appropriately safeguard personal information. Periodically reconcile the card inventory to the Distribution Log for Payments of Cash, Gift Cards and Other Cash Equivalents, and Tangible Personal Property.

Distribute cards within 60 days of purchase.

Return unused cards for credit when possible.

**Fiscal Year End**
Annually, on June 30, the department is to report to General Accounting any inventory of gift cards more than sixty days old.

For gift cards purchased with funding other than grants, the department submits a journal entry to record the value of cards on hand as a prepaid expense. Contact General Accounting if assistance is required to create the journal entry.
**Gift Cards and Cash Equivalents Purchase and Use**

**Grant/Contract End**

At the end of a grant or contract period, the department submits an Expenditure Transfer Request (*BPPM 30.25*) to move the value of any unused gift cards purchased with grant or contract monies (programs 11-14) to an unrestricted funding source.

**SECURITY AND INVENTORY**

Do not leave gift cards unattended and unsecured. Store gift cards in a secure and locked location. Control and limit access to the storage location.

Periodically reconcile the gift card inventory to the Distribution Log for Payments of Cash, Gift Cards and Other Cash Equivalents, and Tangible Personal Property (*BPPM 45.53*).

**Audit**

The Distribution Log for Payments of Cash, Gift Cards and Other Cash Equivalents, and Tangible Personal Property must support the outstanding card inventory. The Controller's Office and other internal or external auditing authorities may audit gift card inventories and distribution logs at any time without notice.

**Confidentiality**

The department is to develop a system for assigning unique recipient identifiers when the identities of research participants must be kept confidential. Enter the unique identifier on the log and Record of Distribution and Request for Taxpayer Number and Certification (Substitute W-9) if required (see *Table 2*). The department securely maintains a crosswalk between the unique identifier and the taxpayer information in accordance with HIPAA human research requirements.

**TAX REPORTING**

Because the IRS regards gift cards as cash equivalents, gift card distribution may create tax and reporting implications for both the recipient and the University. When such distribution occurs, it is important for the protection of the recipient, department personnel, and WSU that the appropriate processes are followed and WSU offices responsible for reporting are notified.

In all cases, the department must maintain a Distribution Log for Payments of Cash, Gift Cards and Other Cash Equivalents, and Tangible Personal Property (*BPPM 45.53*). The department must retain such payment documentation in accordance with the University records retention schedules (*BPPM 90.01*).
Gift Cards and Cash Equivalents Purchase and Use

TAX REPORTING (cont.)

If gifts to one individual equal or exceed $600 in a calendar year, the department submits a Record of Distribution and Request for Taxpayer Number and Certification (Substitute W-9) to Accounts Payable as soon as possible, but no later than January 5th of the following year in order to ensure inclusion in 1099 reporting. (See BPPM 45.53.) Table 3 outlines some of the most common situations and the appropriate handling. Contact Accounts Payable with questions.

For single amounts over $50, the department must collect the recipient's name, social security number, street address, and the date of payment.

Any amount paid to an employee is to be reported to Payroll Services on a Substitute W-9. EXCEPTION: Departments are not required to report to Payroll regarding research participant incentive payments to employees. Departments handle such payments in the same manner as any other research participant payment, following 1099 reporting rules.

SAFEGUARDING INFORMATION

Departments are to collect and maintain taxpayer information with a high level of security. Departments are to make such information available only to WSU employees who require it for IRS reporting purposes. Refer to BPPM 90.78 for policy regarding the use of social security numbers on forms. When it is necessary to collect taxpayer information, the information is to be collected prior to distribution of the gift card.

See Confidentiality for procedures for protecting identities of research participants.
